# Distribution Mapping and Analysis Portal (DisMAP)

## INTRODUCTION

---

### 1. Background

Understanding how species are distributed in space and time and the factors which drive spatial patterns in distribution and abundance are central questions in ecology and important for species conservation and management. In fisheries stock assessments species distribution knowledge is used to identify stock structure and boundaries. Species distribution information also comes into play when making large scale marine spatial planning decisions, such as Marine Protected Area designations, or locations of human activities such as off-shore wind-farms or shipping lanes. However, as climatic and environmental conditions change, fish species may see changes in their productivity or their preferred locale (Pinsky et al. 2013, Poloczanska et al. 2016, Barange et al. 2018). Shifts in species distributions are already occurring at alarming rates, with one estimate placing it at 72 km/decade on average (Poloczanska et al. 2013). Well known examples of these shifts include mackerel in the eastern Atlantic and blueline tilefish and black sea bass in the western Atlantic which have all seen northward shifts in their distributions.

These shifts in distribution pose a central challenge to fisheries managers (Karp et al. 2019) as they can and already are having significant impacts on key management decisions. For instance, if a species moves out of its historical range, it may not be adequately sampled by research surveys, leading to biases in the index of abundance obtained from the survey data. Another complication can occur when a species shifts across management boundaries. This can be particularly challenging when the species is new to the management area into which it is shifting, and therefore no management regime is in place for it. Allocation also becomes an issue when species shift across management boundaries, as the fishermen in the species' historic range may want to maintain their historical allocation, and the fishermen in the area into which it has moved may also wish to be allocated some quota.

Given the potential impacts of shifting distributions on sustainable fisheries management, marine spatial planning and the cross-jurisdictional nature of the issue, it is crucial that scientists and managers have access to information on historic and projected stock distributions for use in decision-making. In a 2016 questionnaire, information on shifts in fish distributions ranked in the top two most important information needs among both fishers and non-fishers (MAFAC 2017). Although NMFS and partners collect extensive information on the distribution of species through surveys, and are increasingly conducting research into the distributions of fish stocks, this information is not currently available in a consistent, useful, easy to access format across regions. Species distribution modeling (SDM) analysis is done within a region on an ad hoc basis for specific stocks, generally relying on data from surveys from within that region. The primary public outlet for much of this SDM research is through peer-reviewed publications, ecosystem status reports, and/or stock assessment reports. However, there are several examples of online platforms which present species distribution modeling results to the public and resource managers, such as [OceanAdapt](#) and [Mid-Atlantic Ocean Data Portal](#). These portals have shown promise as decision support tools for fisheries managers, however these existing platforms and outlets do not enable easy

comparison between stocks within and across regions, or for the interactive exploration of results. Additionally, the SDM results and information are scattered between these various outlets making it challenging to find and compare information across stocks and regions.

Considering the large amounts of research on understanding species distributions, advancements in species distribution modeling, the clear management implications of shifting distributions, and the cross-jurisdictional nature of the issue, NMFS initiated development of a new portal building off of existing platforms to pull together the wealth of information on species distributions and provide robust information on marine species distributions to support science and management spanning across regions. The goal of the portal is to enable improved data integration, access to model results, and knowledge sharing across regions, to enhance not only NMFS ability to track species distribution shifts as they move across management boundaries or out of or into survey domains, but to also track NMFS progress and efforts to understand and account for these shifts.

## 2. Revision History

March 2022:	Portal published.
December 2022:	Hawaii Deep 7 distribution products and BFISH survey data added to portal
April 2023:	Annual data update; Addition of Northern Bering Sea region; change in species filtering criteria to also have to be present in >5% of hauls each year as well as present in at least 3/4 <sup>th</sup> of survey years
July 2024:	Annual data update. Fixed several issues with the GMEX code including: (1) issues with merging of Tow (invrec) and bio (bgsrec) tables, (2) taxonomic coding issues – used a new biocodes table, (3) problematic taxa with known identification issues in the field. Fixed issues with SEUS wtcpue calculations.

## SPECIES DISTRIBUTION PRODUCTS

---

### 3. Data sources and Data Processing

In this latest version of the portal, species distribution products are derived from regional fishery-independent survey data. For the continental U.S., the survey data comes from regional fishery-independent bottom-trawl surveys. Survey data for Hawai'i is for the Deep-7 species complex only and comes from the Bottomfish Fishery-independent Survey in Hawai'i (a.k.a., BFISH). When more than one survey is conducted in a region (e.g. spring, summer, and fall) we analyze each season separately.

These survey data can be accessed through regional databases (see Table 1) or through reaching out to survey leads and exist in many different tables and formats. The first step in making these data available in DisMAP and in a format which can be used to develop the subsequent species distribution products, is compiling and processing the data into a standard format with common data structure and variable names. This was carried out using an R script originally developed by the Ocean Adapt team at Rutgers University (OceanAdapt 2021) and modified to meet the needs of DisMAP. The code combines the various tables for each region, removes unnecessary columns, and renames columns as necessary to have standard column names across the regions. Additionally, for three regions (Southeast, West Coast (annual

and triennial), and Gulf of Mexico) the wtcpue is not reported and therefore is calculated in the R script. This involves calculating the area swept for each haul associated with each weight, and then dividing the weight by the calculated area swept, to get the weight per unit effort (kg per ha). To ensure that changes in survey extent over time do not impact the estimate of distribution shifts, we also standardize each survey to a consistent spatial footprint by removing strata which have poor temporal coverage. Years with poor sampling coverage are also removed from the dataset used for analysis (see Table 1 for notes on data filtering in each region). In Alaska and the West Coast, we combine some species into species complexes due to difficulty in distinguishing them to the species level and/or to keep consistency with how they are assessed for management purposes.

After this data cleaning process, the following standard set of columns are selected for each region: region, sampleid, year, lat, lon, stratum, stratumarea, depth, spp, wtcpue. At this point the cleaned and filtered regional datasets are combined into one table, and a final taxonomic QA/QC is conducted. This QA/QC involves removing higher taxon codes (such as family or order level classifications), which are generally used as a ‘catch all’ for hard to identify specimens within those families or orders, and species that are poorly sampled by the trawl gear (see Appendix I for list of taxon removed). These higher order categories are retained only when there was an explicit decision to lump species together into species complexes (e.g., *Bathryaja* sp. or *Doryteuthis* sp). The data is further trimmed to only include species that are caught in at least 5% of tows in a year across 3/4th of the survey years in each region (see Appendix II for complete list of retained and excluded species). Lastly, the dataset is expanded to include zeros for when a species that is found in the region is not caught in a particular trawl. The compiled, filtered, trimmed and zero expanded dataset is then sent through a Python script to provide the spatial distribution products described in the following sections.

#### **4. Bubble Plot**

Each raw observation of wtcpue for a species from the compiled dataset is provided and can be plotted as a circle on the map, where the circle size is proportional to the wtcpue (kg per ha).

#### **5. Interpolated Biomass Distributions**

The distribution surface is generated by using the inverse distance weighting (IDW) interpolation method in a Python script. The IDW approach is used as it is a simple, relatively easy approach to apply across the large number of species collected in the surveys. The approach makes it possible to predict and interpolate unobserved densities at any location in the survey area. For this approach the wtcpue data from the compiled dataset described in section 2.1 is cube-root transformed prior to interpolation, and transformed back to original units (cubed back to kg/ha (wtcpue) values) for all further analysis described below. However, the raster displayed on the map is the cubed root values for improved visualization. Interpolation weights in IDW are computed as a function of the distance between observed sample sites and the site at which the prediction is to be made, with the weight being the inverse distance raised the the power of 2. The search radius used with IDW was 200,000 m (200 km), with 10 being the minimum and 15 being the maximum number of sampling sites included in the interpolation.

In addition to spatial weighting, the IDW approach used here includes temporal weighting. A five year window of data is used, with data from the mapped year having the highest weight in the interpolation and data from 2 years prior to and after the mapped year having much lower weights. This weighting is determined as follows:

$$\text{YearWeights} = 3 - (\text{abs}(\text{Tc} - \text{Ti}))$$

where Tc is the year being mapped Ti is the year of the samples. This year weighting is then applied to the weighting scheme by multiplying the year weighting by the distance weighting in the mapping. Note for surveys that don't sample annually (e.g. West Coast Tri-annual, Aleutian islands, Gulf of Alaska) this weighting results in the use of only the data for the year being mapped, as the other years are further than 2 years out on either side of the year being mapped so are given a weight of zero. The interpolation is carried out using a 2km x 2km grid cell size for the bottom trawl survey data and a 500m x 500m grid cell size for the BFISH survey. The interpolation boundaries were either provided by regional survey subject matter experts, or when not available, were determined by examination of the full survey footprint and the available observations from the trimmed dataset (e.g. in some regions the full survey footprint is trimmed to account for the removal of certain strata from the dataset due to poor temporal coverage in those strata). It is important to note that the choices of weighting, transformation, and pixel cell size, can have significant impacts on the resulting interpolation surfaces.

## 6. Single Species Distribution Metrics

### 6.1. Latitudinal center of gravity

The latitudinal center of gravity is the center of a population's distribution as indicated by the average latitude weighted by the biomass at each latitude within the survey domain. It is the geographic center of the total weight of the entire population. This metric is calculated using a Python script after the interpolated distribution surface is generated. The latitudinal center of gravity is the mean latitude of the species distribution, where each raster cell latitude is weighted by the value of wtcpue for that cell. This is shown in the formula below:

$$\text{COG}_{\text{year}} = \frac{\sum_{i=1}^k (d_i \times t_i)}{\sum_{i=1}^k t_i}$$

where  $d_i$  is a value of latitude associated with a raster (estimation) grid cell  $i$ .  $t_i$  denotes predicted (interpolated) wtcpue value at each raster (estimation) grid  $i$ .  $k$  is the total number of estimation grid cells in the study area. The result is one COG value for each year in the time series, for each species.

### 6.2. Range Limits

The species range limits are the geographic boundary beyond which a species does not occur. This can also be thought of as a measure of the location of the leading and trailing edges of a species' range. This metric is calculated based on the interpolated biomass raster layers. The min latitude (southern range limit) is the latitude where 95% of the species distribution/biomass (or latitudes where wtcpue >0) are

north or this value (so it's the 5<sup>th</sup> percentile), and the max latitude (northern range limit) is the lat where 95% of the species biomass is south of (below) this latitude.

### 6.3. Depth center of gravity

This metric is similar to the latitudinal center of gravity, but instead of being the average latitude weighted by biomass, it is the average depth weighted by biomass. This metric is calculated in Python after the interpolated distribution surface is generated. It is the mean depth where each raster cell depth, taken from bathymetry values within each 2 km grid cell, is weighted by the value of wtcpue for that cell, and follows the same formulation as Lat COG, but the di value is the depth of the grid cell, instead of lat. The result is one depth value for each year in the time series, for each species. Bathymetry data was obtained for the Aelution Islands, Eastern Bering Sea, and the Gulf of Alaska from the Alaska Fisheries Science Center, for BFISH from the Pacific Islands Fisheries Science Center for the BFISH data, and for the remaining regions from GEBCO (GEBCO 2021).

### 6.4. Area Analysis

This analysis is conducted based on the interpolated distribution surface layers, and is done in real-time based on user selected species and either selected or drawn area of interest. Two area analysis are calculated as:

- a. the proportion of the selected area where the species is present (i.e., wtcpue > 0 (or some other threshold?). Area of grid cells within selected area where wtcpue>0 divided by total area of selected area (in km<sup>2</sup>).

$$= A_{\text{area,species}}/A_{\text{area}}$$

- b. the proportion of the species biomass distribution found in (or covered by) the area of interest. This is calculated by summing the biomass for grid cells found within the area of interest, and dividing by the total biomass of the species in each year.

$$= \text{Biomass}_{\text{area,species}}/\text{Biomass}_{\text{species}}$$

## 7. Regional Summary Products

### 7.1. Species Richness Maps

Species richness maps are calculated for each region separately, and display the number of species present in each raster cell within a given region's survey domain. These maps are calculated by stacking each individual species' IDW biomass raster layers and counting the total number of species present in each cell. A species is considered present in a cell if the wtcpue > 0. It's important to note that these maps provide the predicted species richness, or number of species expected to encounter in the trawl survey at a given location, and do not reflect the species richness for the ecosystem as a whole.

### 7.2. Distribution Metric Regional Averages

For each region the average change in center of biomass is calculated (in terms of both Latitude and Depth) of a core set of species, defined as species that are caught every year in the survey. This is done by calculating the 'offset' or difference between each year's center of gravity and that of the starting year.

Thus the first year is standardized to zero and all other years are calculated as the difference from that starting year. The annual average of these individual species offsets is then calculated for the core set of species in each region, and then plotted on a time-series graph to enable evaluation of the overall change in center of biomass of species for a given region.

## **FUTURE DIRECTIONS**

---

### **8. Additional data types**

This first release focuses on fisheries-independent survey data in the US, but future iterations of the portal will seek to include additional survey data and model outputs both within the US regions and Canada. We will build off existing partnerships between the Ocean Adapt team and Canadian researchers in the Department of Fish and Oceanography (DFO) to explore ways to incorporate Canadian survey data and models into the portal. In addition to expanding the surveys covered in this portal, we will also be exploring ways to bring in results of environmentally-linked species distribution models for display within the portal. Incorporating these model outputs not only will serve to improve access to and sharing of model code and results, but will also enable us to present predicted future shifts in distributions.

Our goal with working to incorporate these additional data sources and types is to help advance a community of practice among researchers and managers from around the U.S. and internationally who deal with the issue of shifting species distributions.

### **9. Additional functionality**

#### **9.1. Multispecies overlap analysis**

We expect species interactions and community composition to change along with climate-driven distribution shifts in individual species (Santora et al. 2017, Pinsky et al. 2020). These changes in species interactions can lead to changes in the productivity of predators and prey. For example, the expansion of Atlantic cod into Arctic waters resulted in increased overlap with its prey which enabled greater reproductive potential and higher biomass of cod (Howell and Filin 2014). However, in the case of walleye pollock, increased overlap with a key predator, arrowtooth flounder, resulted in higher mortality of juvenile walleye pollock (Hunsicker et al. 2013). Therefore, enabling multispecies analysis and exploration of changes in species overlap and interactions is important, as species are unlikely to shift their distributions in isolation. Future iterations of the portal will enable users to explore species interactions, such as area or range overlap, within an area of interest and evaluate how those interactions have or may change over time.

#### **9.2. Species shifts & human interactions**

As species distributions shift, target species biomass may become less available to ports that have historically targeted a species, and more available to others. Changes in species distribution can also exacerbate or mitigate the effects of regional stock declines (or increases) for specific ports (Selden et al. 2019). To allow users to examine how shifting species distributions will alter availability to focal ports, a future module will be developed to allow users to choose a target species, a port of interest, and a

specified radius from port. The analysis will then calculate the sum of the predicted biomass within the radius of the selected port as a metric of availability to port. Users will be able to examine how availability to ports has changed or is projected to change under future conditions for different ports.

<i>Gadus morhua</i>	Atlantic cod	Northeast US Fall, Northeast US Spring
<i>Genyonemus lineatus</i>	White croaker	West Coast Annual Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Gibbesia neglecta</i>	Lesser mantis shrimp	
<i>Glyptocephalus cynoglossus</i>	Witch flounder	Northeast US Fall, Northeast US Spring Aleutian Islands, Eastern Bering Sea, Gulf of Alaska, West Coast Annual, West Coast Triennial, Bering Sea Combined
<i>Glyptocephalus zachirus</i>	Rex sole	Aleutian Islands, Eastern Bering Sea, Northern Bering Sea, Gulf of Alaska, West Coast Triennial, Bering Sea
<i>Gorgonocephalus eucnemis</i>	Basket star	Combined
<i>Gymnocanthus galeatus</i>	Armorhead sculpin	Aleutian Islands Northern Bering Sea, Bering Sea
<i>Gymnocanthus pistilliger</i>	Threaded sculpin	Combined
<i>Gymnothorax saxicola</i>	Honeycomb moray	Gulf of Mexico Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Gymnura micrura</i>	Smooth butterfly ray	
<i>Haemulon aurolineatum</i>	Tomtate grunt	Gulf of Mexico
<i>Haemulon plumieri</i>	White grunt	Gulf of Mexico
<i>Haliutichthys</i> sp	Batfishes	Gulf of Mexico
<i>Halocynthia aurantium</i>	Sea peach	Aleutian Islands
<i>Harengula jaguana</i>	Scaled sardine	Gulf of Mexico, Southeast US Fall

<i>Hemilepidotus jordani</i>	Yellow irish lord	Aleutian Islands, Eastern Bering Sea, Gulf of Alaska, Bering Sea Combined
<i>Hemilepidotus papilio</i>	Butterfly sculpin	Eastern Bering Sea, Bering Sea Combined
<i>Hemitripteris americanus</i>	Sea raven	Northeast US Fall, Northeast US Spring
<i>Hemitripteris bolini</i>	Bigmouth sculpin	Eastern Bering Sea, Gulf of Alaska, Bering Sea Combined
<i>Hepatus epheliticus</i>	Calico box crab	Southeast US Spring, Southeast US Summer
<i>Heterozonias alternatus</i>	Canonball sun star	West Coast Annual
<i>Hexagrammos stelleri</i>	Whitespotted greenling	Northern Bering Sea, Bering Sea Combined
<i>Hippasteria californica</i>	Californian spiny star	West Coast Annual
<i>Hippasteria phrygiana</i>	Arctic cushion star	West Coast Annual
<i>Hippocampus erectus</i>	Lined seahorse	Gulf of Mexico
<i>Hippoglossina oblonga</i>	American fourspot flounder	Northeast US Fall, Northeast US Spring
<i>Hippoglossoides elassodon</i>	Flathead sole	Aleutian Islands, Gulf of Alaska, West Coast Annual, West Coast Triennial
<i>Hippoglossoides elassodon</i> and <i>H. robustus</i>	Flathead sole-bering flounder	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
<i>Hippoglossoides platessoides</i>	American plaice	Northeast US Fall, Northeast US Spring
<i>Hippoglossus hippoglossus</i>	Atlantic halibut	Northeast US Fall, Northeast US Spring
<i>Hippoglossus stenolepis</i>	Pacific halibut	Aleutian Islands, Eastern Bering Sea, Northern Bering Sea, Gulf of Alaska, West Coast Annual, West Coast Triennial, Bering Sea Combined
<i>Histodermella kagigunensis</i>	Spud sponge	Aleutian Islands
<i>Homarus americanus</i>	American lobster	Northeast US Fall, Northeast US Spring
<i>Hyas coarctatus</i>	Arctic lyre crab	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
<i>Hyas lyratus</i>	Pacific lyre crab	Aleutian Islands, Eastern Bering Sea, Gulf of Alaska, Bering Sea Combined
<i>Hydrolagus colliei</i>	Spotted ratfish	Gulf of Alaska, West Coast Annual, West Coast Triennial
<i>Hypanus americanus</i>	Southern stingray	Southeast US Summer
<i>Hypanus sabinus</i>	Atlantic stingray	Southeast US Fall
<i>Hypanus say</i>	Bluntnose stingray	Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Icelinus filamentosus</i>	Threadfin sculpin	West Coast Annual, West Coast Triennial
<i>Icelus spiniger</i>	Thorny sculpin	Eastern Bering Sea, Bering Sea Combined
<i>Illex illecebrosus</i>	Northern shortfin squid	Northeast US Fall, Northeast US Spring
<i>Isopsetta isolepis</i>	Butter sole	Gulf of Alaska
<i>Kathetostoma albigutta</i>	Lancer stargazer	Gulf of Mexico

Labidochirus splendescens	Splendid hermit	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Lagocephalus laevigatus	Smooth puffer	Gulf of Mexico Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
Lagodon rhomboides	Pinfish	Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
Larimus fasciatus	Banded drum	Gulf of Mexico
Leiolumbrus nitidus	White elbow crab	Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
Leiostomus xanthurus	Spot	Aleutian Islands, Eastern Bering Sea, Northern Bering Sea, Gulf of Alaska, West Coast Triennial, Bering Sea Combined
Lepidopsetta sp.	Rock soles	Gulf of Mexico
Lepophidium breviparbe	Blackedge cusk-eel	Gulf of Mexico
Lepophidium jeannae	Mottled cusk-eel	Northeast US Fall
Lepophidium profundorum	Fawn cusk-eel	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Leptasterias (Hexasterias) polaris	Polar six-rayed star	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Leptasterias arctica	Arctic star	Aleutian Islands, Eastern Bering Sea, Northern Bering Sea, Gulf of Alaska, Bering Sea Combined
Lethasterias nanimensis	Black spined sea star	Northeast US Fall, Northeast US Spring
Leucoraja erinaceus	Little skate	Northeast US Fall, Northeast US Spring
Leucoraja garmani	Rosette skate	Northeast US Fall, Northeast US Spring
Leucoraja ocellata	Winter skate	Eastern Bering Sea, Northern Bering Sea, Gulf of Alaska, Bering Sea Combined
Limanda aspera	Yellowfin sole	Northern Bering Sea, Bering Sea Combined
Limanda sakhalinensis	Sakhalin sole	Northeast US Fall, Northeast US Spring, Southeast US Spring
Limulus polyphemus	Horseshoe crab	Northern Bering Sea, Bering Sea Combined
Liparis gibbus	Variegated snailfish	West Coast Annual
Liponema brevicorne	Tentacle shedding anemone	Aleutian Islands
Lithodes aequispinus	Golden king crab	West Coast Annual
Lithodes couesi	Scarlet king crab	Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
Lolliguncula brevis	Atlantic brief squid	Northeast US Fall, Northeast US Spring
Lophius americanus	Monkfish	

<i>Luidia clathrata</i>	Lined sea star	Gulf of Mexico
<i>Luidia foliolata</i>	Gray sand star	West Coast Annual Northern Bering Sea, Bering Sea Combined
<i>Lumpenus fabricii</i>	Slender eelblenny	Gulf of Mexico
<i>Lutjanus campechanus</i>	Red snapper	Gulf of Mexico
<i>Lutjanus griseus</i>	Gray snapper	Gulf of Mexico
<i>Lutjanus synagris</i>	Lane snapper	Gulf of Mexico
<i>Lycenchelys crotalinus</i>	Snakehead eelpout	West Coast Annual Eastern Bering Sea, Gulf of Alaska, Bering Sea Combined
<i>Lycodes brevipes</i>	Shortfin eelpout	West Coast Annual, West Coast Triennial
<i>Lycodes cortezianus</i>	Bigfin eelpout	West Coast Annual
<i>Lycodes diapterus</i>	Black eelpout	West Coast Annual, West Coast Triennial
<i>Lycodes pacificus</i>	Blackbelly eelpout	Eastern Bering Sea, Northern Bering Sea, Gulf of Alaska, Bering Sea Combined
<i>Lycodes palearis</i>	Wattled eelpout	Northern Bering Sea, Bering Sea Combined
<i>Lycodes turneri</i>	Polar eelpout	Gulf of Alaska, West Coast Annual, West Coast Triennial
<i>Lyopsetta exilis</i>	Slender sole	Eastern Bering Sea, Bering Sea Combined
<i>Mactromeris polynyma</i>	Arctic surfclam	Aleutian Islands, Gulf of Alaska
<i>Malacocottus zonurus</i>	Darkfin sculpin	Northeast US Fall, Northeast US Spring
<i>Malacoraja senta</i>	Smooth skate	Eastern Bering Sea, Northern Bering Sea, Gulf of Alaska, Bering Sea Combined
<i>Mallotus villosus</i>	Capelin	West Coast Annual
<i>Mediaster aequalis</i>	Vermillion star	Northeast US Fall, Northeast US Spring
<i>Melanogrammus aeglefinus</i>	Haddock	Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Menticirrhus americanus</i>	Southern kingfish	Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Menticirrhus littoralis</i>	Gulf kingfish	Northeast US Fall, Northeast US Spring
<i>Merluccius albidus</i>	Offshore hake	Northeast US Fall, Northeast US Spring
<i>Merluccius bilinearis</i>	Silver hake	West Coast Annual, West Coast Triennial
<i>Merluccius productus</i>	Pacific hake	West Coast Annual, West Coast Triennial
<i>Metacarcinus magister</i>	Dungeness crab	Gulf of Mexico
<i>Metapenaeopsis goodei</i>	Caribbean velvet shrimp	West Coast Annual
<i>Metridium farcimen</i>	Giant plumose anemone	West Coast Triennial
<i>Microgadus proximus</i>	Pacific tomcod	Gulf of Mexico, Northeast US Fall, Northeast US Spring, Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Micropogonias undulatus</i>	Atlantic croaker	West Coast Annual
<i>Microstomus bathybius</i>	Deep-sea sole	Aleutian Islands, Gulf of Alaska, West Coast Annual, West Coast Triennial
<i>Microstomus pacificus</i>	Dover sole	

Molpadia intermedia	Sweet potato sea cucumber	West Coast Annual
Monacanthus ciliatus	Fringed filefish	Gulf of Mexico
Monanchora pulchra	Yellow leafy sponge	Aleutian Islands
Moreiradromia antillensis	Hairy sponge crab	Gulf of Mexico
Mullus auratus	Red goatfish	Gulf of Mexico
Mustelus canis	Smooth dogfish	Northeast US Fall, Southeast US Spring
Mycale (Mycale) loveni	Loven's horny sponge	Aleutian Islands
Myliobatis freminvillei	Bullnose eagle ray	Southeast US Spring Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Myoxocephalus jaok	Plain sculpin	
Myoxocephalus octodecemspinosus	Longhorn sculpin	Northeast US Fall, Northeast US Spring Aleutian Islands, Eastern Bering Sea, Northern Bering Sea, Gulf of Alaska, Bering Sea Combined
Myoxocephalus polyacanthocephalus	Great sculpin	Northern Bering Sea, Bering Sea Combined
Myoxocephalus scorpius	Shorthorn sculpin	Combined
Myxoderma platyacanthum	NA	West Coast Annual
Myzopsetta ferruginea	Yellowtail flounder	Northeast US Fall, Northeast US Spring Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Myzopsetta proboscidea	Longhead dab	
Nearchaster (Nearchaster) aciculosus	Needle spined fragile star	West Coast Annual
Neptunea amianta	White neptune	West Coast Annual Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Neptunea borealis	NA	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Neptunea heros	Northern neptune whelk	Bering Sea Combined Eastern Bering Sea, Bering Sea
Neptunea lyrata	Lyre whelk	Combined Eastern Bering Sea, Bering Sea
Neptunea pribiloffensis	Pribilof whelk	Combined Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Neptunea ventricosa	Fat whelk	Bering Sea Combined
Nezumia stelgidolepis	California grenadier	West Coast Annual
Nicholsina usta	Emerald parrotfish	Gulf of Mexico Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Ocella dodecaedron	Bering poacher	
Octopoteuthis deletron	Octopus squid	West Coast Annual
Ogcocephalus declivirostris	Slantbrow batfish	Gulf of Mexico
Ogcocephalus parvus	Roughback batfish	Gulf of Mexico
Oncorhynchus tshawytscha	Chinook salmon	West Coast Triennial
Ophidion holbrookii	Bank cusk-eel	Gulf of Mexico Gulf of Alaska, West Coast Annual, West Coast Triennial
Ophiodon elongatus	Lingcod	

Ophiolepis elegans	Elegant brittle star	Gulf of Mexico
Ophiopholis aculeata	Daisy brittle star	Aleutian Islands
Ophiura sarsii	Notched brittle star	Northern Bering Sea, Gulf of Alaska, Bering Sea Combined Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
Opisthonema oglinum	Atlantic thread herring	West Coast Annual
Opisthoteuthis californiana	Flapjack octopus	Aleutian Islands, Eastern Bering Sea, Gulf of Alaska, Bering Sea Combined
Oregonia gracilis	Graceful decorator crab	Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
Orthopristis chrysoptera	Pigfish	Northern Bering Sea, Bering Sea Combined
Osmerus mordax	Rainbow smelt	Southeast US Fall, Southeast US Spring, Southeast US Summer
Ovalipes ocellatus	Ocellate lady crab	Southeast US Fall, Southeast US Spring, Southeast US Summer
Ovalipes stephensoni	Coarsehand lady crab	Eastern Bering Sea, Gulf of Alaska, Bering Sea Combined
Pagurus aleuticus	Aleutian hermit	Aleutian Islands
Pagurus brandti	Sponge hermit	Northern Bering Sea, Bering Sea Combined
Pagurus capillatus	Hairy hermit crab	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
Pagurus ochotensis	Alaskan hermit crab	Southeast US Fall, Southeast US Spring, Southeast US Summer
Pagurus pollicaris	Gray hermit crab	Northern Bering Sea, Bering Sea Combined
Pagurus rathbuni	Longfinger hermit	Northern Bering Sea, Bering Sea Combined
Pagurus trigonocheirus	Fuzzy hermit	Northern Bering Sea, Bering Sea Combined
Pallasina barbata	Tubenose poacher	Northeast US Fall
Pandalus borealis	Atlantic northern shrimp	Gulf of Alaska
Pandalus dispar	Sidestripe shrimp	Aleutian Islands, Eastern Bering Sea, Gulf of Alaska, Bering Sea Combined
Pandalus eous	Northern shrimp	Northern Bering Sea, Bering Sea Combined
Pandalus goniurus	Humpy shrimp	Gulf of Alaska, West Coast Annual, West Coast Triennial
Pandalus jordani	Ocean shrimp	West Coast Annual
Pandalus platyceros	Spot shrimp	Aleutian Islands
Pandalus tridens	Yellowleg pandalid	Northeast US Fall, Northeast US Spring, Southeast US Fall, Southeast US Spring, Southeast US Summer
Paralichthys dentatus	Summer flounder	

<i>Paralichthys lethostigma</i>	Southern flounder	Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Paralithodes camtschaticus</i>	Red king crab	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
<i>Paralithodes platypus</i>	Blue king crab	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
<i>Pareques umbrosus</i>	Cubbyu	Gulf of Mexico
<i>Parmaturus xaniurus</i>	Filetail catshark	West Coast Annual
<i>Parophrys vetulus</i>	English sole	Gulf of Alaska, West Coast Annual, West Coast Triennial
<i>Pasiphaea pacifica</i>	Pacific glass shrimp	Gulf of Alaska, West Coast Annual
<i>Pasiphaea tarda</i>	Crimson pasiphaeid	West Coast Annual
<i>Penaeus aztecus</i>	Brown shrimp	Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Penaeus duorarum</i>	Pink shrimp	Gulf of Mexico, Southeast US Spring
<i>Penaeus setiferus</i>	Northern white shrimp	Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Peprilus burti</i>	Gulf butterfish	Gulf of Mexico
<i>Peprilus paru</i>	Harvestfish	Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Peprilus triacanthus</i>	American butterfish	Northeast US Fall, Northeast US Spring, Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Persephona mediterranea</i>	Mottled purse crab	Southeast US Spring, Southeast US Summer
<i>Phycis chesteri</i>	Longfin hake	Northeast US Fall, Northeast US Spring
<i>Pitarenus cordatus</i>	Corded pitar	Gulf of Mexico
<i>Placopecten magellanicus</i>	Atlantic sea scallop	Northeast US Fall, Northeast US Spring
<i>Platichthys stellatus</i>	Starry flounder	Eastern Bering Sea, Northern Bering Sea, Gulf of Alaska, Bering Sea Combined
<i>Platylambrus granulatus</i>	Bladetooth elbow crab	Gulf of Mexico
<i>Platymera gaudichaudii</i>	Armed box crab	West Coast Annual
<i>Pleurobranchaea californica</i>	NA	West Coast Annual
<i>Pleurogrammus monopterygius</i>	Atka mackerel	Aleutian Islands, Gulf of Alaska
<i>Pleuronectes quadrituberculatus</i>	Alaska plaice	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
<i>Pleuronichthys decurrens</i>	Curlfin sole	West Coast Annual
<i>Plicifusus kroyeri</i>	Arctic whelk	Eastern Bering Sea, Bering Sea Combined
<i>Pododesmus macrochisma</i>	Green falsejingle	Aleutian Islands
<i>Podothecus accipenserinus</i>	Sturgeon poacher	Aleutian Islands, Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined

<i>Podothecus veterenus</i>	Veteran poacher	Northern Bering Sea, Bering Sea Combined
<i>Pollachius virens</i>	Pollock	Northeast US Fall, Northeast US Spring Northeast US Fall, Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Pomatomus saltatrix</i>	Bluefish	West Coast Annual, West Coast Triennial
<i>Porichthys notatus</i>	Plainfin midshipman	Gulf of Mexico
<i>Porichthys plectrodon</i>	Atlantic midshipman	Gulf of Mexico
<i>Prionotus alatus</i>	Spiny searobin	Northeast US Fall, Northeast US Spring, Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Prionotus carolinus</i>	Northern searobin	Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Prionotus evolans</i>	Striped searobin	Gulf of Mexico
<i>Prionotus longispinosus</i>	Bigeye searobin	Gulf of Mexico
<i>Prionotus ophryas</i>	Bandtail searobin	Gulf of Mexico
<i>Prionotus paralatus</i>	Mexican searobin	Gulf of Mexico
<i>Prionotus roseus</i>	Bluespotted searobin	Gulf of Mexico, Southeast US Fall, Southeast US Summer
<i>Prionotus rubio</i>	Blackwing searobin	Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Prionotus scitulus</i>	Leopard searobin	Gulf of Mexico
<i>Prionotus stearnsi</i>	Shortwing searobin	Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Prionotus tribulus</i>	Bighead searobin	Gulf of Mexico
<i>Pristipomoides aquilonaris</i>	Wenchman	
<i>Pseudopleuronectes americanus</i>	Winter flounder	Northeast US Fall, Northeast US Spring
<i>Pseudostichopus mollis</i>	Sandy sea cucumber	West Coast Annual
<i>Pteraster militaris</i>	Wrinkled sea star	Aleutian Islands Eastern Bering Sea, Bering Sea
<i>Pteraster obscurus</i>	Obscure cushion star	Combined
<i>Pycnopodia helianthoides</i>	Sunflower sea star	Gulf of Alaska
<i>Raninoides louisianensis</i>	Gulf frog crab	Gulf of Mexico
<i>Rathbunaster californicus</i>	California sun star	West Coast Annual Eastern Bering Sea, Bering Sea
<i>Reinhardtius hippoglossoides</i>	Greenland halibut	Combined
<i>Renilla muelleri</i>	Mueller's sea pansy	Gulf of Mexico
<i>Rhinoptera bonasus</i>	Cownose ray	Southeast US Fall, Southeast US Spring Gulf of Mexico, Northeast US Fall, Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Rhizoprionodon terraenovae</i>	Atlantic sharpnose shark	Gulf of Mexico
<i>Rhomboplites aurorubens</i>	Vermilion snapper	Aleutian Islands, West Coast Annual
<i>Rossia pacifica</i>	Eastern pacific bobtail	

Rostroraja eglanteria	Clearnose skate	Gulf of Mexico, Northeast US Fall, Northeast US Spring, Southeast US Fall, Southeast US Spring
Rostroraja texana	Roundel skate	Gulf of Mexico
Sagenaster evermanni	Evermann's star	West Coast Annual
Sardinella aurita	Spanish sardine	Gulf of Mexico Aleutian Islands, Eastern Bering Sea, Bering Sea Combined
Sarritor frenatus	Sawback poacher	Gulf of Mexico
Saurida brasiliensis	Largescale lizardfish	Gulf of Mexico
Saurida normani	Shortjaw lizardfish	Gulf of Mexico Northern Bering Sea, Bering Sea Combined
Sclerocrangon boreas	Sculptured shrimp	Northeast US Spring
Scomber scombrus	Atlantic mackerel	Southeast US Fall, Southeast US Summer
Scomberomorus cavalla	King mackerel	Southeast US Fall, Southeast US Spring, Southeast US Summer
Scomberomorus maculatus	Spanish mackerel	Northeast US Fall, Northeast US Spring, Southeast US Fall, Southeast US Spring, Southeast US Summer
Scophthalmus aquosus	Windowpane flounder	Gulf of Mexico
Scorpaena agassizii	Longfin scorpionfish	Gulf of Mexico
Scorpaena brasiliensis	Barbfish	Gulf of Mexico
Scorpaena calcarata	Smoothhead scorpionfish	Gulf of Mexico
Scyllarides nodifer	Ridged slipper lobster	Gulf of Mexico
Scyllarus chacei	Chace slipper lobster	Gulf of Mexico Aleutian Islands, Gulf of Alaska, West Coast Annual, West Coast Triennial
Sebastes alutus	Pacific ocean perch	West Coast Annual
Sebastes aurora	Aurora rockfish	Gulf of Alaska, West Coast Annual, West Coast Triennial
Sebastes babcocki	Redbanded rockfish	Aleutian Islands, Gulf of Alaska
Sebastes borealis	Shortraker rockfish	Gulf of Alaska
Sebastes brevispinis	Silvergray rockfish	West Coast Annual
Sebastes chlorostictus	Greenspotted rockfish	West Coast Annual, West Coast Triennial
Sebastes crameri	Darkblotched rockfish	West Coast Annual, West Coast Triennial
Sebastes diploproa	Splitnose rockfish	West Coast Annual, West Coast Triennial
Sebastes elongatus	Greenstriped rockfish	West Coast Annual, West Coast Triennial
Sebastes entomelas	Widow rockfish	West Coast Triennial
Sebastes fasciatus	Acadian redfish	Northeast US Fall, Northeast US Spring
Sebastes flavidus	Yellowtail rockfish	West Coast Annual, West Coast Triennial
Sebastes goodei	Chilipepper rockfish	West Coast Annual, West Coast Triennial
Sebastes helvomaculatus	Rosethorn rockfish	West Coast Annual, West Coast Triennial
Sebastes jordani	Shortbelly rockfish	West Coast Annual, West Coast Triennial
Sebastes melanostictus and S. aleutianus	Blackspotted and roughey rockfish	Aleutian Islands, Gulf of Alaska, West Coast Triennial
Sebastes paucispinis	Bocaccio	West Coast Annual, West Coast Triennial

Sebastes pinniger	Canary rockfish	West Coast Annual, West Coast Triennial
Sebastes polyspinis	Northern rockfish	Aleutian Islands, Gulf of Alaska
Sebastes proriger	Redstripe rockfish	West Coast Triennial
Sebastes saxicola	Stripetail rockfish	West Coast Annual, West Coast Triennial
Sebastes semicinctus	Halfbanded rockfish	West Coast Annual
Sebastes variabilis and S. ciliatus	Dusky and dark rockfish	Aleutian Islands, Gulf of Alaska Gulf of Alaska, West Coast Annual, West Coast Triennial
Sebastes zacentrus	Sharpchin rockfish	Aleutian Islands, Gulf of Alaska, West Coast Annual, West Coast Triennial
Sebastolobus alascanus	Shortspine thornyhead	West Coast Annual, West Coast Triennial
Sebastolobus altivelis	Longspine thornyhead	West Coast Annual Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
Selene setapinnis	Atlantic moonfish	Summer
Selene vomer	Lookdown	Southeast US Fall, Southeast US Summer
Serranus atrobranchus	Blackear bass	Gulf of Mexico
Serranus notospilus	Saddle bass	Gulf of Mexico
Serranus phoebe	Tattler	Gulf of Mexico Northern Bering Sea, Bering Sea
Serripes notabilis	Oblique smoothcockle	Combined
Sicyonia brevirostris	Brown rock shrimp	Gulf of Mexico
Sicyonia dorsalis	Lesser rock shrimp	Gulf of Mexico
Solenocera atlantidis	Dwarf humpback shrimp	Gulf of Mexico
Solenocera vioscai	Humpback shrimp	Gulf of Mexico
Sphoeroides dorsalis	Marbled puffer	Gulf of Mexico Southeast US Fall, Southeast US Spring, Southeast US Summer
Sphoeroides maculatus	Northern puffer	Southeast US Summer
Sphoeroides parvus	Least puffer	Gulf of Mexico
Sphoeroides spengleri	Bandtail puffer	Gulf of Mexico
Sphyræna guachancho	Guachanche barracuda	Southeast US Fall, Southeast US Summer Southeast US Fall, Southeast US Spring, Southeast US Summer
Sphyrna tiburo	Bonnethead	Southeast US Summer
Squalus acanthias	Spiny dogfish	Northeast US Fall, Northeast US Spring Gulf of Alaska, West Coast Annual, West Coast Triennial
Squalus suckleyi	Pacific spiny dogfish	West Coast Triennial
Squilla chydæa	Offshore mantis shrimp	Gulf of Mexico Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
Squilla empusa	Mantis shrimp	Summer
Stegophiura ponderosa	NA	Gulf of Alaska Southeast US Fall, Southeast US Spring, Southeast US Summer
Stellifer lanceolatus	Star drum	Southeast US Summer
Stenorhynchus seticornis	Yellowline arrow crab	Gulf of Mexico
Stenotomus caprinus	Longspine porgy	Gulf of Mexico

<i>Stenotomus chrysops</i>	Scup	Northeast US Fall Gulf of Mexico, Southeast US Fall,
<i>Stephanolepis hispidus</i>	Planehead filefish	Southeast US Summer
<i>Strongylocentrotus droebachiensis</i>	Green sea urchin	Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
<i>Strongylocentrotus fragilis</i>	Fragile sea urchin	Gulf of Alaska Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
<i>Styela rustica</i>	Sea potato	
<i>Stylasterias forreri</i>	Velcro star	West Coast Annual
<i>Stylocidaris affinis</i>	Pencil urchin	Gulf of Mexico
<i>Syacium gunteri</i>	Shoal flounder	Gulf of Mexico
<i>Syacium papillosum</i>	Dusky flounder	Gulf of Mexico
<i>Symphurus diomedeanus</i>	Spottedfin tonguefish	Gulf of Mexico
<i>Symphurus plagiatus</i>	Blackcheek tonguefish	Southeast US Fall, Southeast US Spring Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Synodus foetens</i>	Inshore lizardfish	
<i>Synodus intermedius</i>	Sand diver	Gulf of Mexico
<i>Synodus poeyi</i>	Offshore lizardfish	Gulf of Mexico
<i>Talismania bifurcata</i>	Threadfin slickhead	West Coast Annual
<i>Tedania (Tedania) kagalaskai</i>	NA	Aleutian Islands Eastern Bering Sea, Northern Bering Sea, Bering Sea Combined
<i>Telmessus cheiragonus</i>	Helmet crab	Eastern Bering Sea, Gulf of Alaska, West Coast Triennial, Bering Sea Combined
<i>Thaleichthys pacificus</i>	Eulachon	
<i>Thrissacanthias penicillatus</i>	NA	West Coast Annual
<i>Trachinocephalus myops</i>	Snakefish	Gulf of Mexico
<i>Trachinotus carolinus</i>	Florida pompano	Southeast US Fall
<i>Trachurus lathami</i>	Rough scad	Gulf of Mexico Gulf of Mexico, Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Trichiurus lepturus</i>	Atlantic cutlassfish	
<i>Trichopsetta ventralis</i>	Sash flounder	Gulf of Mexico
<i>Triglops forficatus</i>	Scissortail sculpin	Aleutian Islands Northern Bering Sea, Bering Sea Combined
<i>Triglops pingelii</i>	Ribbed sculpin	
<i>Triglops scepticus</i>	Spectacled sculpin	Aleutian Islands Southeast US Fall, Southeast US Spring, Southeast US Summer
<i>Trinectes maculatus</i>	Hogchoker	
	Large orange peel nudibranch	West Coast Annual
<i>Tritonia tetraquetra</i>		
<i>Upeneus parvus</i>	Dwarf goatfish	Gulf of Mexico
<i>Urophycis chuss</i>	Red hake	Northeast US Fall, Northeast US Spring
<i>Urophycis floridana</i>	Southern hake	Gulf of Mexico

Urophycis regia	Spotted hake	Northeast US Fall, Northeast US Spring, Southeast US Spring
Urophycis tenuis	White hake	Northeast US Fall, Northeast US Spring
Xiphopenaeus kroyeri	Atlantic seabob	Southeast US Fall
Xyrichtys novacula	Pearly razorfish	Gulf of Mexico
Zalembeius rosaceus	Pink seaperch	West Coast Annual, West Coast Triennial
Zaniolepis latipinnis	Longspine combfish	West Coast Annual
Zaprora silenus	Prowfish	Aleutian Islands
Zoarces americanus	Ocean pout	Northeast US Fall, Northeast US Spring

## APPENDIX II: SPECIES CHANGES FROM 2023 DATA

### Species removed/changed:

<b>spp</b>	<b>common</b>	<b>FilterSubRegion</b>	<b>Reason for removal</b>
Astropecten duplicatus	Two-spined star fish	Gulf of Mexico	Astropecten combined to genus level in GMEX due to identification issues, and dropped from analysis
Astropecten cingulatus		Gulf of Mexico	Astropecten combined to genus level in GMEX due to identification issues, and dropped from analysis
Doryteuthis pealeii	Longfin inshore squid	Gulf of Mexico	Doryteuthis combined to a genus complex, and now reported as Doryteuthis sp
Doryteuthis pleii	Slender inshore squid	Gulf of Mexico	Doryteuthis combined to a genus complex, and now reported as Doryteuthis sp
Halieutichthys aculeatus	Pancake batfish	Gulf of Mexico	Halieutichthys combined to a genus complex, and now reported as Halieutichthys sp
Limanda proboscidea	Longhead dab	Eastern Bering Sea	Name change
Amusium papyraceum	Paper scallop	Gulf of Mexico	Name change
Raja texana	Roundel skate	Gulf of Mexico	Name change
Leucoraja erinacea	Little skate	Northeast	Name change
Limanda ferruginea	Yellowtail flounder	Northeast	Name change
Limanda proboscidea	Longhead dab	Northern Bering Sea	Name change
Loligo spp.	Loligo squid	Southeast	Name change
Embassichthys bathybius	Deep-sea sole	West Coast	Name change
Nearchaster aciculosus	Needle spined fragile star	West Coast	Name change

### APPENDIX III: REMOVED HIGHER LEVEL TAXON

Scientific name	Common
Henricia	NA
Paguridae	Hermit crabs
Porifera	Sponges
Scyphozoa	Jellyfishes
Stelletta	NA
Careproctus	NA
Hyas	NA
Actiniaria	Sea anemones
Calcigorgia	NA
Holothuroidea	Sea cucumbers
Tethya	NA
Argis	NA
Decapodiformes	NA
Myctophidae	Lanternfishes
Octopodidae	NA
Stylatula	NA
Nudibranchia	Sea slugs
Virgulariidae	NA
Thaliacea	NA
Beringius	True whelks
Neptunea	True whelks
Ascidacea	Sea squirts
Bryozoa	Moss animals
Aplidium	Sea pork
Hydroidolina	NA
Callogorgia	NA
Thouarella	NA
Bonneviella	NA
Gorgonacea	Gorgonian corals
Ophiolebes	NA
Ophioscolex	NA
Plumarella	NA
Rhabdocalyptus	NA
Bathylagidae	Deep sea smelts
Hirudinea	Leeches
Leptasterias	NA
Colus	NA
Eumicrotremus	NA
Pteraster	Slime stars
Buccinum	True whelks
Lycodes	NA

Volutopsius	NA
Muriceides	NA
Solaster	NA
Stylaster	NA
Crangon	NA
Ceramaster	NA
Liparidae	Snailfishes
Zoarcidae	Eelpouts
Mytilidae	NA
Polychaeta	Bristle worms
Anthomastus	NA
Caryophyllia	Cupcorals
Octocorallia	Octocorals
Arthrogorgia	NA
Ophidiidae	Cusk eels
Thoracica	True barnacles
Mediaster	NA
Cucumaria	NA
Gastropoda	NA
Hippasteria	NA
Isopoda	Pillbugs slaters, and woodlice
Ophiacantha	NA
Polynoidae	Scaleworms
Odontohenricia	NA
Ophiuroidea	Brittle stars
Bathylotes	NA
Metridium	NA
Stomphia	NA
Stenobranchius	NA
Rajiformes	NA
Asteroidea	Star fishes
Diaphus	NA
Hexactinellida	Glass sponges
Gastropoda	Sea snails
Polyplacophora	Chitons
Pycnogonida	Sea spiders
Errinopora	NA
Ammodytes	NA
Distichopora	NA
Ctenophora	Comb jellies
Cyclopteridae	Lumpfishes
Halocynthia	NA

<i>Acipenser oxyrinchus</i>	Atlantic sturgeon
<i>Actinostola groenlandica</i>	NA
<i>Adelogorgia phyllosclera</i>	NA
<i>Adelosebastes latens</i>	NA
<i>Admete solida</i>	NA
<i>Aequipecten glyptus</i>	Red ribbed scallop
<i>Aequorea forskalea</i>	Many ribbed jellyfish
<i>Aetobatus narinari</i>	Spotted eagle ray
<i>Aforia circinata</i>	Keeled aforia
<i>Aforia goodei</i>	NA
<i>Agonopsis sterletus</i>	Southern spearnose poacher
<i>Agonopsis vulsa</i>	Northern spearnose poacher
<i>Agriopoma texasianum</i>	NA
<i>Akoya platinum</i>	Silvery topsnail
<i>Alaskagorgia aleutiana</i>	NA
<i>Albunea gibbesii</i>	Surf mole crab
<i>Albunea paretii</i>	Beach mole crab
<i>Alcyonidium disciforme</i>	NA
<i>Alcyonidium enteromorpha</i>	NA
<i>Alcyonidium pedunculatum</i>	Smooth leather bryozoan
<i>Alectis ciliaris</i>	African pompano
<i>Alepisaurus ferax</i>	Long snouted lancetfish
<i>Aleutihenricia beringiana</i>	Bering henricia
<i>Aleutihenricia federi</i>	NA
<i>Aliger gallus</i>	Roostertail conch
<i>Allocareproctus jordani</i>	Cherry snailfish
<i>Allocareproctus kallaion</i>	Combed snailfish
<i>Allocareproctus tanix</i>	Peach snailfish

<i>Allocareproctus unangas</i>	Goldeneye snailfish
<i>Allocareproctus ungar</i>	Whiskered snailfish
<i>Alloctytus folletti</i>	Oxeye oreo
<i>Allosmerus elongatus</i>	Whitebait smelt
<i>Allothyone mexicana</i>	NA
<i>Alopias superciliosus</i>	Bigeye thresher
<i>Alopias vulpinus</i>	Thresher
<i>Alosa chrysochloris</i>	Skipjack shad
<i>Alosa mediocris</i>	Hickory shad
<i>Alpheus armatus</i>	Brown snapping shrimp
<i>Alpheus floridanus</i>	Sand snapping shrimp
<i>Alpheus formosus</i>	Striped snapping shrimp
<i>Alpheus heterochaelis</i>	Bigclaw snapping shrimp
<i>Alpheus intricatus</i>	NA
<i>Alpheus normanni</i>	Green snapping shrimp
<i>Aluterus heudelotii</i>	Dotterel filefish
<i>Aluterus monoceros</i>	Unicorn leatherjacket filefish
<i>Aluterus scriptus</i>	Scribbled leatherjacket filefish
<i>Amaea mitchelli</i>	Mitchell's wentletrap
<i>Amauropsis islandica</i>	Iceland moonshell
<i>Amblyraja hyperborea</i>	Broad skate
<i>Americardia media</i>	Atlantic strawberry-cockle
<i>Ameritella modesta</i>	Plain tellin
<i>Amicula vestita</i>	NA
<i>Ammodytes americanus</i>	American sand lance
<i>Ammodytes dubius</i>	Northern sand lance
<i>Ammodytes hexapterus</i>	Arctic sand lance
<i>Ammodytes personatus</i>	Pacific sand lance
<i>Amphaster marianus</i>	Mariana's island star
<i>Amphilectus ovulum</i>	Beige horny sponge
<i>Amphiodia occidentalis</i>	Long armed brittle star
<i>Amphiophiura superba</i>	NA
<i>Amphisbetia greenei</i>	Fibre optic hydroid
<i>Amphistichus argenteus</i>	Barred surfperch
<i>Amphistichus rhodoterus</i>	Redtail surfperch
<i>Amphiura (Amphiura) diomedea</i>	NA
<i>Anadara notabilis</i>	Eared ark
<i>Anadara secernenda</i>	Skewed ark
<i>Anadara transversa</i>	Transverse ark
<i>Anarhichas orientalis</i>	Bering wolffish
<i>Anarrhichthys ocellatus</i>	Wolf-eel

<i>Ariosoma balearicum</i>	Bandtooth conger
<i>Aristofusus couei</i>	Yucatan spindle
<i>Aristofusus excavatus</i>	Apricot spindle
<i>Aristostomias scintillans</i>	Shiny loosejaw
<i>Armases cinereum</i>	Squareback marsh crab
<i>Armina californica</i>	California armina
<i>Armina tigrina</i>	Striped sea slug
<i>Arctediellus miacanthus</i>	NA
<i>Arctediellus pacificus</i>	Hookhorn sculpin
<i>Arctediellus scaber</i>	Rough hookear

Artedius fenestralis	Padded sculpin
Artedius lateralis	Smoothhead sculpin
Artemisina arcigera	NA
Arthrogorgia kinoshitai	NA
Arthrogorgia otsukai	NA
Arthrogorgia utinomii	NA
Ascidia paratropa	Glassy tunicate
Asemichthys taylori	Spinynose sculpin
Aspidophoroides monopterygius	Alligatorfish
Astarte arctica	Arctic astarte
Astarte borealis	Boreal astarte
Astarte compacta	Compact astarte
Astarte crenata	Crenulate astarte
Astarte elliptica	Elliptical astarte
Astarte montagui	Narrow hinge astarte
Asterias rubens	Common starfish
Asteronyx longifissus	NA
Asteronyx loveni	NA
Asteroporpa (Asteroporpa) annulata	NA
Asteroschema sublaeve	NA
Asthenactis fisheri	Fisher's myxasterid
Astrapogon alutus	Bronze cardinalfish
Astrapogon puncticulatus	Blackfin cardinalfish
Astrochele laevis	NA
Astrocyclus caecilia	NA
Astrogordius cacaoticus	NA
Astrometis sertulifera	Fragile rainbow star
Astronebris tatafilius	NA
Astropecten antillensis	NA
Astropecten armatus	Spiny sand star
Astropecten articulatus	Royal sea star
Astropecten californicus	California sand star
Astropecten ornatissimus	Orange sand star
Astrophyton muricatum	Giant basket star
Astropyga magnifica	NA
Astroscopus guttatus	Northern stargazer
Astroscopus ygraecum	Southern stargazer
Atheresthes evermanni	Kamchatka flounder
Atherinops affinis	Topsmelt silverside
Atherinopsis californiensis	Jacksmelt
Atlantopandalus propinquus	Similar shrimp
Atrina rigida	Stiff pen shell
Atrina seminuda	Half naked pen shell
Atrina serrata	Sawtooth penshell

Aulacofusus brevicauda	Thick ribbed whelk
Aulacofusus calathus	NA
Aulacofusus herendeeni	Thin-ribbed whelk
Aulacofusus ombronius	Shady whelk
Aulacofusus periscelidus	Garter whelk
Aulorhynchus flavidus	Tube snout
Aulosaccus schulzei	NA
Aurelia aurita	Moon jelly
Aurelia labiata	Pacific moon jelly
Aurelia limbata	Brownbranded moon jelly
Auxis thazard	Frigate tuna
Avocettina infans	Avocet snipe eel
